comment:

- a. The Meissen railroad station is known as the collecting point for shipments of Soviet dependents going to the Soviet Union.
- b. The two kasernes are occupied by the 95th Tank Regt and the ? No. Litel Bn of the 9th Tank Piv.

The statement that the motorcycle unit is subordinate to the 95th Tank west is presumably wrong. The motorcycle unit may conform to orders by the regiment only as far as quarters are concerned.
